Dear Mrs. SALMAN,

I am writing in response to your job posting on LinkedIn last Tuesday, indicating the company's need for a SQL developer. With my experience, educational background, and relevant skills in the field, I believe I might be the individual your company is looking for.

I know the field where I studied for a bachelor's degree in computer science and engineering, and I am currently pursuing a master's degree in Web development. I am also a quick learner, innovative, and self-driven individual with solid numeracy and problem-solving skills. I also gained experience in the field during my internships and volunteer. I am also well served with C++, C, Python, JavaScript, HTML,angular,springboot and CSS coding languages.

Your company is the most suitable in terms of interest. Its success in website development and working with you will give me further exposure, help me gain experience, and develop my skills towards becoming a competent website developer. I am very excited and interested in working with you.

I can be reached by phone at +1(475) 234-8493

or via e-mail at nrevanth1998@gmail.com

Thank you in advance for your consideration and time. I look forward to hearing from you.

Sincerely,

Revanth Nallamatti.
